Leadership Assesment, Development and Training

[More...](#)

Quality leadership is a primary driver of organizational success; it strongly influences employees' opportunity and motivation to perform well. Through skills assessment and consultation, and high-quality development processes and training, OEi's Leadership Development services will enable your organization to cultivate the leadership skills needed to draw top performance from your workforce - now and in the future.

Performance Management Strategy and Process Design

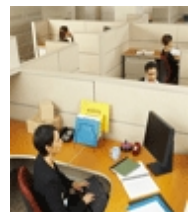

[More...](#)

OEi's Strategy and Process Design services will equip your organization with customized performance management strategies and processes that generate strong performance in the near-term and develop the talent you need for long-term success. Among the processes we address are: performance appraisal, corrective action / discipline, recognition and reward, succession planning, and new employee orientation.

Work Climate Assessment and Consulting

[More...](#)

OEi's Assessment and Consulting services will enable your organization to create a work climate that is an asset in attracting, motivating and retaining high-caliber talent. Using proven diagnostic tools, and working in partnership with you, we will create a customized, data-driven plan for developing a work climate that is aligned with your operational needs and organizational values.
